

ULTIMATE CAMPERS XTERRAN

The XTERRAN from Ultimate Campers takes design, durability and practicality to new heights

Want a camper trailer that's built and designed by Aussies, for Aussies? A camper trailer that re-defines design, durability and practicality? A camper trailer that'll take you anywhere in Oz in absolute comfort and confidence? The new XTERRAN from Ultimate Offroad Campers ticks all those boxes. Computer aided design, aeronautical construction and numerous prototypes have contributed to the creation of the Ultimate Off-Road Camper. Everything you need to take on your adventure will fit into the lines of the Ultimate, even your dinghy and outboard. The entire body, lounge, galley, lid and components of the Ultimate are hand moulded from high tech materials resulting in an extremely strong and low maintenance composite structure that will endure for decades. The chassis is

fabricated from high tensile Duragal steel resulting in excellent strength and performance in all off-road extremes. The Ultimate's aerodynamic profile ensures minimal damage through deflected stones. The tare weight is only 850kg, allowing for greater payloads, optimised fuel economy and safer cruising

Using tried and tested design and engineering, the XTERRAN offers off-road adventurers superior performance with a whole new look. Tough, practical and durable, the XTERRAN comes with bullet-proof suspension and flared guards to accommodate larger tyres if required. With a U-shaped lounge and king-size bed as standard and canvas options such as a spare room, the XTERRAN is perfect for couples and families wanting to experience the roughest, toughest and most beautiful parts of Australia.

This is the ultimate overnight camper trailer - setup and pack up in seconds!
